# Development Proposal

**Project Title:** Premium Essay Marketplace Platform
**Client:** Nikhil Singhal & Arhan Singhal

**Developer: Gaurav Pandey**

**Date:** 5 July, 2025

**Project Description**

We propose to develop a **full-stack essay platform** that connects premium **essay writers** with **students** seeking high-quality academic content for **international and overseas studies**. The platform will allow essay writers to **upload and sell their essays**, while readers can **preview 15-25% the content for free** and **unlock full access through payment**.

# User Roles

## 1. Essay Writers

- Register/Login
- Create and update their profile
- Upload new essays with title, subject, preview, and price
- Monitor earnings and sales
- Withdraw funds to their bank/UPI

## 2. Essay Readers (Students)

- Register/Login
- Browse/search essays by category, subject, and rating
- View half essay as a preview
- Pay to unlock full essay (Razorpay/Stripe Integration)
- Save or bookmark essays
- Download purchased essays

# Features & Modules

## Authentication

- Email/OTP Login for both users
- Admin Login

## Essay Listing

- Upload feature with rich text editor for writers
- Categorization & tags (subject-wise)
- Display preview of essays (first 50%)
- Payment wall to unlock full content

## Payment Integration

- Razorpay or Stripe for secure checkout
- Payment history & invoice generation
  Commission management (e.g. platform keeps 20%)

# Dashboard

## For Writers:

- Upload & manage essays
- View earnings, sales stats, withdrawal requests

## For Readers:

- Browse purchased essays
- Purchase history

## Admin Panel

- Manage users (writers/readers)
- Approve/reject essays
- Handle disputes/refunds
- Manage revenue reports

## Tech Stack

| Component | Technology |
|---|---|
| Frontend | React.js + Tailwind CSS |
| Backend | Node.js + Express.js |
| Database | MongoDB or PostgreSQL |
| Authentication | JWT + bcrypt |
| Payments | Razorpay API |
| Deployment | AWS |
| Admin Panel | Custom dashboard (React) |

## Estimated Cost

| Service | Price (INR) |
|---|---|
| Frontend Development | 40,000 Rs |
| Backend API + Auth + Payments | 40,000 Rs |
| Database Design & Integration | 15,000 Rs |
| Admin Panel | 25,000 Rs |
| Bug Fixes | 5000 Rs |
| Deployment + Hosting Setup | 15000 Rs |
| **Total** | **1,40,000 Rs-** |

## PROJECT COST & PAYMENT TERMS

The total cost of the project is **INR 140,000 (One Lakh Forty Thousand Rupees Only)**, which shall be paid in three installments:

- **Advance Payment:** INR 25,000/-
  *Due immediately upon signing this agreement to initiate the project.*

- **Second Payment (On 75% Completion):** INR 60,000/-
  *Due on or before 22nd July, upon completion of approximately 75% of the work and deployment to the staging server.*

- **Final Payment (Post Launch):** INR 55,000/-
  *Due immediately after the successful launch of the website.*

## TERMS & CONDITIONS

- All payments are non-refundable once the respective phase is completed and approved.

- The client is expected to provide timely feedback, content, and approvals to avoid delays.

- The project will be deemed complete once the final version is deployed and tested on the live server.

- Ownership of the final website and its source code will be transferred to the client after full payment.

---

## ACCEPTANCE & SIGNATURES

*By signing this document, both parties agree to the terms outlined in this proposal.*

**Estimated Date of Completion:** 31-07-2025

**Name**:Nikhil Singhal, Arhan Singhal

**Date**: 15-07-2025

**Service Provider Signature**: 

**Service Provider Name:** Gaurav Pandey
